★ Star baby was born in the dark sky. ★

It was small.

It was bright.

Star baby landed on the earth.

Earth baby did not move.

Earth baby did not sing.

Star baby opened its heart!

Light filled the air!

Earth baby did not wake up.

Star baby touched the sea.

Big waves came.

That was the first tsunami.

**Star baby touched the sky!**

**The sky began to spin!**

**That was the first tornado.**

**Star baby touched the ground!**

***The ground shook hard!  
That was the first earthquake.***

**Earth baby woke up!**

**Star baby smiled.**

**Earth baby smiled.**

Earth baby sang and danced.

Star baby went up, up, up.

Back to the stars.

Earth baby was awake.  
Life grew all around.

**Earth baby said, "Thank you."**

# The End
